

Please read these usage instructions thoroughly before installation and first use, and retain them for future reference.

SAFETY INFORMATION

TWIST is a magnetic-mechanical mounting system consisting of a base (fig. A) and a connector (fig. B). The TWIST tex base can only be used in conjunction with genuine TWIST products provided for this purpose. The mechanical locking will not work otherwise.

The TWIST tex base shall not be attached anywhere where it could impair the safety.

Warning: Not suitable for extreme sports! Not suitable for children under 3 years (risk of suffocation)!

The TWIST tex base is to be attached to webbing with a width of 25-40 mm and 1-2 mm thick.

The connecting TWIST module shall not exceed 700 g, otherwise it could disconnect.

Note: Please also observe the safety instructions included with the respective TWIST module.

Check before every use that the TWIST module is correctly locked in place and the TWIST tex base is free from dirt. If a defect of any kind should become evident, stop using the product immediately and contact your specialist supplier.

TECHNICAL DETAILS

Material: PA66GF, Neodym
Maximum load: 700 g
Made in China

INSTALLATION

Place the webbing (fig. D) between the top and bottom plates and screw the magnetic screws (fig. E) tightly into place. While attaching take note of the different shapes of the magnetic screws.

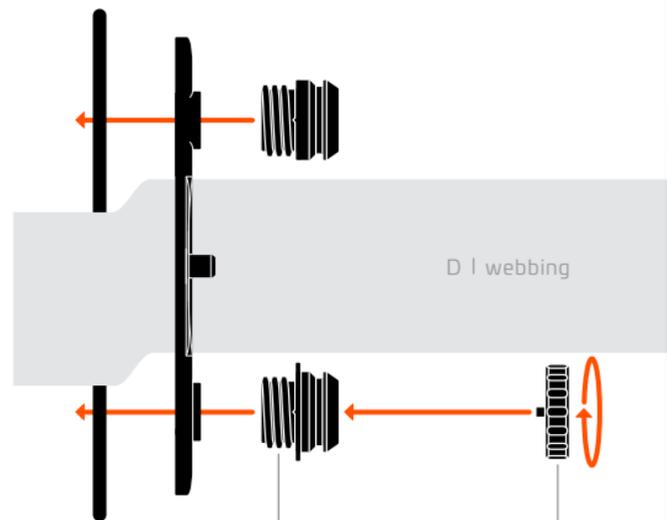

A base

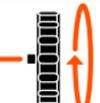

C alignment

B connector

E magnetic screws

F tool

www.fidlock-bike.com/manuals/texbase

To secure even tighter please use the tool (fig. F) and place it into the notches on the magnetic screws and screw tightly. Please make sure that the arrows and the marking "up" on the TWIST tex base and the mounting TWIST module are pointing in the same direction (fig. C).

Note: Please also observe the usage instructions included with the respective TWIST module.

If you are unsure about the installation of the product, consult your specialist supplier for advice.

USAGE

Please familiarize yourself with the operating of the TWIST tex base and the used TWIST module (fig. ready for TWIST) before use and check that it is working properly. Make sure that the product has been installed correctly.

Note: Please also observe the usage instructions included with the respective TWIST module.

INTENDED USE

The TWIST tex base is intended for installation and use on the webbing of backpacks and bags with a width of 25-40 mm and no thicker than 1-2 mm.

Any use other than intended is considered improper use and should be avoided, as it can lead to malfunction, damage or injury.

DISPOSAL

The TWIST tex base can be disposed of with household waste. Please observe the relevant environmental regulations regarding waste disposal in your country.

LIABILITY

We have made every effort to ensure that the usage instructions are as correct, complete and accurate as possible. Dis-

crepancies cannot be completely ruled out, so no liability can be assumed for errors in the instructions provided.

We take no responsibility for loss or injury occurring as a result of failing to observe the usage instructions.

No liability for resulting damage can be assumed if the TWIST coupling system is used for other purposes, used improperly, or subject to unauthorised repair.
