

Please read these usage instructions thoroughly before installation and first use, and retain them for future reference.

SAFETY INFORMATION

TWIST is a magnetic-mechanical mounting system consisting of a *base* (fig. A) and a *connector* (fig. B). The TWIST bike base can only be used in conjunction with genuine TWIST products provided for this purpose. The mechanical locking will not work otherwise.

The TWIST bike base is not to be installed in such places on the bicycle which could impair safe cycling.

Check before every use that the TWIST module is correctly locked in place and the TWIST bike base is free from dirt. If a defect of any kind should become evident, stop using the product immediately and contact your specialist supplier.

TECHNICAL DETAILS

Material: PA66GF, Neodym
Maximum load: see instruction manual of used TWIST module
Made in China

INSTALLATION

The TWIST bike base is installed using the bottle bosses provided by the manufacturer on the down tube or the seat tube of the bicycle frame (fig. D).

Please make sure that the arrows and the marking "up" on the TWIST bike base and the mounting TWIST module are pointing in the same direction (Fig. C).

Note: Please also observe the usage instructions included with the respective TWIST module.

A tightening torque of 2 newton metres (Nm) is necessary for the secure attachment of the bike base to the bicycle.

A base

C alignment

B connector

D bottle bosses

E use original screws

www.fidlock-bike.com/manuals/bikebase

Note: Use only the screws provided! Screws with a higher head will prevent secure attachment of the TWIST module to the frame, which could result in it becoming loose whilst riding (fig.E)!

If you are unsure about the installation of the product, consult your specialist supplier for advice.

USAGE

Please familiarize yourself with the operating of the TWIST bike base and the used TWIST module (fig. ready for TWIST) before use and check that it is working properly. Make sure that the product has been installed correctly.

Note: Please also observe the usage instructions included with the respective TWIST module.

INTENDED USE

The TWIST bike base is intended for installation and use on the bottle bosses provided by the manufacturer of the bicycle frame. Any use other than intended is considered improper use and should be avoided, as it can lead to malfunction, damage or injury.

DISPOSAL

The TWIST bike base can be disposed of with household waste. Please observe the relevant environmental regulations regarding waste disposal in your country.

LIABILITY

We have made every effort to ensure that the usage instructions are as correct, complete and accurate as possible. Discrepancies cannot be completely ruled out, so no liability can be assumed for errors in the instructions provided.

We take no responsibility for loss or injury occurring as a result of failing to observe the usage instructions.

No liability for resulting damage can be assumed if the TWIST coupling system is used for other purposes, used improperly, or subject to unauthorised repair.
